Installation Precautions

This page states the safety measures the users must take to avoid circumstances where the system may occur physical damages or injuries. Please THOROUGHLY go over this page before the system installation/operation.

General Precautions

Maintain dust FREE condition during and after System Installation/Operation.

Please place the system cover in a safe location when opened.

Securely stow tools and cables away from the passages.

Avoid wearing loosened clothes or accessories during installation/Operation.

Avoid any unnecessary actions that may damage/harm system or personnel.

Do NOT open the system unless advised by Lumantek representative. Lumantek takes no responsibility on units with broken RMA seals.

Power Precautions

Please check cable overload before connecting the system to the power supply.

Avoid wearing metal accessories (Rings, Earrings) connecting system to the power source.

Avoid operating on wet floors. Make sure power extension cables, floors, and instruments are grounded and in a safe operating condition.

Please discharge static electricity by touching grounding metals before starting hardware installation.

The grounding parts must be disassembled last.

Manufacture takes no responsibilities on Direct/Indirect losses or damages due to use of inappropriate parts or services by unauthorized service provider

Supplying power during the system installation may cause damages to the system and personnel.

AC Power Precautions

This unit utilizes AC power, the cord comes with a grounding function.

Please connect the system to the power socket with groundings.

Use Green/Yellow 0.75mm² (18AWG) or higher grade grounding cables.

Do NOT block power sockets with tools or boxes. Please keep it clear at all times.

Introduction

CAMOCAMO is a computer graphic software. This software can be easily linked with SDI Camera (Decklink) or USB webcam. CAMOCAMO is a real-time face recognition digital signage solution. CAMOCAMO can read and track your face automatically up to two people at demo version. You can put and edit lots of graphic effects on your live image. Share your photo on your social media.

Features

- Face recognition with computer graphics
- Sketch over the display
- 1080p60 resolution image sequence
- Easy editor tool
- Supports USB webcam and SDI Camera (DeckLink)

NOTE : Since this is only demo version of the program, the company no longer offers any support for it. It is known to work on Windows 7 or 10. You must have your own webcam or SDI Camera (Decklink) in order for the program to work.

Computer system requirements (Minimum)

OS : Windows7 or Windows 8

CPU : Intel i7 4 generation & above

RAM : 8GB

VGA : GeForce GTX 750

Resolution : 1920 x 1080

Others : Blackmagic DeckLink or Webcam

Note: No hardware connection required for installation at demo version.

Installation
